At nightfall, the party is just getting started high in the Vegas sky. Located on the iconic 55th floor of the Palms Casino & Resort, Apex offers an Instagram-worthy panoramic 360-degree view of Las Vegas, which, thanks to its distinct outdoor patio, also turns the 8,000-square-foot-space into an open-air social club.

Contemporary yet approachable finishes accompanied by sounds from local and national DJs greet guests upon arrival to Apex. Guests will also be surrounded by four one-of-a-kind art sculptures that serve as a focal point to the room, creating a sophisticated, upscale vibe. Indulge in VIP bottle service all while peering down on the bustling city below.
