

What is a Handshake?

A handshake is a fee paid directly to a club host or podium at a venue to ensure a preferred table location at a lower minimum spend with expedited entry.

Handshakes are not always required. However, they may help ensure your table placement and pricing with certain venues. Handshakes may also help get the few extra people into the venue over the maximum capacity of a table.

Handshakes are not tips to West Coast **VIP** hosts and go 100% to the venue being booked. You may choose to not include this in your spend, however, please understand our hands may be tied on many luxuries that come with this small table fee.

Thank You for Your Commitment
